

FLETCHER'S TABLETOP CUTTER SERIES

2200 | Decorative Bevel & V-Groove Matboard Cutter

DECORATIVE BEVEL AND V-GROOVE MATBOARD CUTTER

Professional level mat or mount board cutter for creating bevels and producing V-Grooves as decorative features and finishes in matboard up to 4-ply. Features a dual cutting feature for matboard specialty cutting or a 90° cutting feature for sizing matboard or cutting of foamboard up to 1/2" (13mm). Available machine sizes, 48" (1.2m) or 60" (1.5m).

MAT OR MOUNT BOARD UP TO 4 PLY | FOAMBOARD UP TO 1/2" (13mm) | CARDBOARD

Titan | Trimmer & Flexible/Semi-Rigid Materials

DUAL CUTTING AND TRIMMING PERFORMANCE

Designed with a dual position cutting head for cutting semi-rigid materials and a trimming feature for flexible materials such as photo paper and canvas. Engineered with a green cutting strip that gives operator a visible cut line, meaning no need for guesswork and reduces scrap from cutting mistakes. Mounts on tabletop or optional stand for shop mobility. Offered in sizes from 40" (1.0m) up to 120" (3.0m).

**CANVAS & VINYL | BANNER MATERIALS | LAMINATED ART/PHOTO MOUNTED ON FOAMBOARD | DIGITAL PRINTS
PHOTO PAPER | FOAMBOARD UP TO 1/2" (13mm) | CORRUGATED PLASTICS UP TO 6mm | CARDBOARD**

F-60 | Flexible/Semi-Rigid Materials

REPLACES THE STRAIGHT EDGE AND KNIFE

Features a unique plastic knife design that allows quick and safe blade changes, a lock-down pressure clamp tightly securing materials during the cutting process and a "lock and cut" function for operator cutting control. Cutting capacity of 62" (1.57m). Use as a tabletop or optional wall-mounted installation.

**CANVAS & VINYL | BANNER MATERIALS | LAMINATED ART/PHOTO MOUNTED ON FOAMBOARD | DIGITAL PRINTS
PHOTO PAPER | FOAMBOARD UP TO 1/2" (13mm) | CORRUGATED PLASTICS UP TO 6mm | CARDBOARD**

Gemini Pro | Flexible/Semi-Rigid Materials

MACHINE OF CHOICE FOR CUTTING LARGE FORMAT GRAPHICS

Recommended for cutting large format graphics. Replaces the common method of a straight edge and knife. Cutter sizes up 120" (3.0m), eliminating the need to re-position the straight-edge. Sight line strip allows operator to line up material for entire length of cut, increasing cutting accuracy.

**CANVAS | BANNER MATERIALS | LAMINATED ART/PHOTO MOUNTED ON FOAMBOARD
DIGITAL PRINTS | PHOTO PAPER | FOAMBOARD UP TO 1/2" (13mm)
CORRUGATED PLASTICS UP TO 6mm | CARDBOARD**
