

COLOR CODED FOR EASY IDENTIFICATION • EASY FIELD REPLACEABLE • QUICK CHANGE TO DIFFERENT CLAMPING PAD • CONFORMS TO MOULDING CONTOUR • IMPROVED CLAMPING

New Clamping Pad System

Black Rubber Pad
(recommended for hardwood)

Part # -04-024

Yellow Rubber Pad
(recommended for medium wood)

Part # -04-025

Blue Rubber Pad
(recommended for soft wood)

Part # -04-026

Adaptable with AMP's full range of Metal Pressure Plates

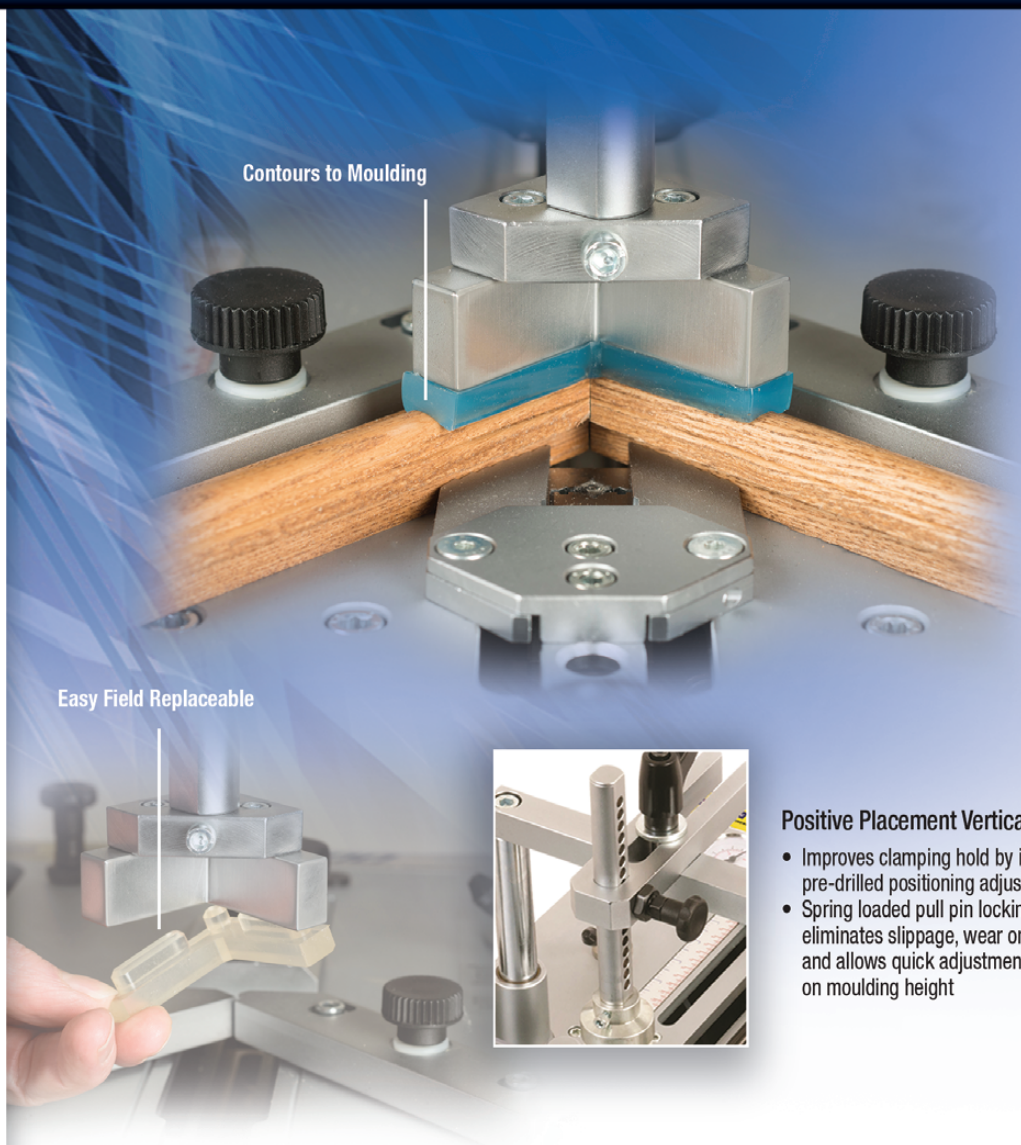

Magnetic – Single Metal Pressure
Part # -04-023

Single Metal Pressure Plate
Part # -04-020

Double Metal Pressure Plate
Part # -04-022

Positive Placement Vertical Clamping

- Improves clamping hold by incorporating pre-drilled positioning adjustments
- Spring loaded pull pin locking mechanism eliminates slippage, wear on vertical rod and allows quick adjustments based on moulding height

New Clamping Pad System

AMP is pleased to announce the release for its New Clamping Pad System incorporating different clamping pad firmness based on moulding hardness. Available in soft, medium and hard, this new system provides the following application benefits.

- Three different pads are available based on moulding hardness, contour, finishes or coatings improving joining operations
- Replacement pads are made with a degree of elasticity conforming to the contour of the moulding improving clamping performance without damaging delicate surfaces
- Color coded for easy identification – Blue (SW), Yellow (MW), Black (HW)
- Easy field replaceable or quick change to different clamping pad depending on joining application
- All clamping pads are interchangeable with magnetic, single, and double metal pressure plates depending on moulding sizes
