In-store Service Revenue Opportunity

Purchase and pay-off your F-3000 Cutter in 9 months and begin earning a profit based on low investment machine cost and small store footprint

Why invest in a cutting machine?

- Service your local homeowners, small businesses, schools, as well as generate new customers with this new service capability
- Quick ROI allows for ongoing sales revenue with minimal operating cost
- Minimal operation maintenance required and easy to use by any store employee

What do I need to set up workspace?

- **Requires minimal store space** – typically installed by mounting on a wall with a 4 x 8 sheet of plywood or optional freestanding unit – 60" machine size
- **Weights 85 lbs** – Requires no team lift and boxed unit is easily movable with hand truck
- **Easy to install** – minimal machine assembly required and no electrical or pneumatic hook-up needed

What is my Return on Investment (ROI)?

The chart illustrates the combined cutting of acrylic and glass services resulting in a ROI generating approximately a 47% profit in year two

Industry average based on this scenario

Based on cutting 180 pieces of acrylic (24" x 30") per year

Selling at \$17.99 Retail

Based on cutting 120 pieces of glass (24" x 30") per year

Selling at \$11.99 Retail
