Fletcher 3000® Multi-Material Cutter

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. Our versatile 3000 unit features a three position cutting turret for glass, acrylics and mat board sizing. Equipped with a patented score and break-out feature, the 3000 unit provides effortless and operator safe cutting every time.

3000 Cutting Capabilities

Foamboard
Up to 1/4” (13mm)

Glass
Up to 1/4” (6mm)

Acrylic
Up to 1/4” (6mm)

Matboard
4, 8, 12 ply

Mirror
Up to 1/4” (6mm)

Ask your distributor about our Substrate Swatch Book to assist you in your cutting needs.

3000 Technical Specs

Cutting Head: Rides on high tensile strength steel, hard chrome plated and polished, resulting in smoother gliding action for consistent cutting head performance and longevity.

Vertical Bars: Rails do not bend or flex during the cutting process for straight, accurate cutting over the entire substrate height.

Material Clamping System: Patented lever-type clamping system that secures in place various substrate heights up to 60" (152cm) to prevent buckling and shifting of material during the cutting process.

Unique Performance Features

- Patented glass cutting turret has a ramping feature that allows the lifting of turret device on top edge of glass resulting in a cleaner edge break
- Wall-mounted or free-standing

F3000 Purchase Package

1. 3000 unit (Main frame assembled, requires right support assembly by customer)
10. Mat/Foamboard Blades
10. Plastic Scoring Blades
10. Glass Wheel Units
4. Wall Mounting Brackets
1. Manual
